

Maayan Aimelak

Student

Profile

A Computer Science student (graduating in October 2024) with strong analytical skills and self-learning ability. Proficient in problem-solving and passionate about technology. Actively seeking roles in Software Development.

Education

B.Sc. in computer science, Holon Institute of Technology (HIT)

2021 — Present

- **Front-End project** for a web application focused on calorie management. The client-side data was stored using IndexedDB. Technologies utilized included HTML, CSS, JavaScript, and ReactJS, with an emphasis on implementing asynchronous functions.
- **Data science project** encompassing data acquisition, data cleaning, exploratory data analysis (EDA), and machine learning. Utilized Python libraries such as Pandas, NumPy, Selenium, and Matplotlib to effectively manage and analyze datasets, extract insights, and develop predictive models.

Volunteering

2021 — Present

Participation in the Merom scholarship of the Farah organization, which grants scholarships to Ethiopian students in exchange for hours of service to the community each academic year.

Work Experience

Shift Manager at security center of the Government Kirya, Tel Aviv

2018 — 2023

Collaboration with diverse individuals in a dynamic and challenging environment, exposure to pressure, and adeptly managing multiple tasks simultaneously. Demonstrated a high level of responsibility and proficiency in security-related roles.

Military Service

Commanding Officer, Magal Formation, overseeing the Recruits Division.

2013 — 2016

- Directed and supervised 40-60 soldiers per cycle, ensuring operational readiness.
- Developed and executed training programs for recruits, including logistical support and range management.
